Portuguese

Rear Admiral Mário do Carmo Durão, was born in Almada. In 1967, after graduation from high school, at Liceu Passos Manuel, in Lisbon, joined the Navy where he graduated from the Portuguese Naval Academy on June 1971.

During his early career, was appointed to service on board several frigates, as Combat Information Officer and, following specialization, as Weapons Officer.

In 1977, graduated from the Naval Postgraduate School, Monterey, USA, with the degrees of *Master of Science in Mechanical Engineering and Mechanical Engineer*.

Between 1977 e 1984, was assigned to the Gabinete de Estudos da Direcção-Geral do Material Naval. Between 1984 and 1994, was appointed Professor at Escola Naval (Portuguese Naval Academy), being responsible for the disciplines of Applied Thermodynamics, Fluid Mechanics, Heat Transfer and Refrigeration and Air Conditioning.

Since 1994, has been involved in the area of Computers and Information Systems, being appointed in October 2005, Director of SIG - Sistema Integrado de Gestão (SAP ERP implementation at the Portuguese Ministry of Defense), being Chairman of DEIG - *SAP Defense Interest Group* between Jan2011 and Dec 2012.

From Feb 2010 to July 2013, executed as Deputy Secretary General at the Portuguese MoD.

RADM Durão has received several commendations and was awarded six decorations (four Distinguished Service Silver Medals, the Portuguese MoD Silver Medal and the Military Gold Medal of Exemplary Behavior).

Rear Admiral Durão is married to Maria João, children teacher. Have a son and a daughter: Rodrigo Nuno, computers engineer and Inês, professor of physical education.

Retired on the 30th December 2013.
